Cinthia Becher

Front-end Developer | Digital Products

About

Since I was a child, I've loved the art of creation. This led me to study Computer Science and get involved with Product Design years later.

As a Product Designer, I thoroughly enjoy the idea of solving real problems with a great user experience.

However, as a Front-end developer, I love to bring to life what were just ideas.

Education

Computer Science

Unisinos | 2020 - present

Dell Product Design Program

Unisinos & Dell Technologies | 2021

HTML & CSS Course

Alura | 2022

JavaScript Course

Alura | 2022

Career

Research Study Assistant | Unisinos

Volunteer | Part-time | Jul 2020 - Nov 2020

Research into the use of multi-agent reinforcement learning.

Website Developer | Orgânica Digital

Internship | Sep 2020 - Apr 2021

Design and build user experiences through WordPress sites using HTML and CSS. I built and helped maintain an online presence for companies and optimized their visibility with SEO tools.

Product Designer | Dell Technologies

Internship | Apr 2021 - present

Being involved in the ideation process to design good user experiences in digital products. Working with Figma, prototyping and wireframing screens and components
